For info on upcoming CME events, please see page 186.

In 2001 the Society of Rural Physicians of Canada published the paper “Evidence-based practical management of type 2 diabetes.” A key element of that paper was the Type 2 Diabetic Flow Chart. Three years later, feedback has been received from doctors in the field, and the Flow Chart has been updated. The 2004 version of the Flow Chart, English and French, can be found on pages 173–176 and is available online at www.srpc.ca
