**Payment Model:** Blended (hourly rate and fee-for-service)  
**Call:** ER -1:8; Obstetrics (optional) – 1:5 (varies dependent upon providers available)

Meadow Lake is a lovely rural community to join in Northern Saskatchewan. Work in a place where you can experience the Canadian North. Located 300 km northwest of Saskatoon there's opportunities for an exciting, and fulfilling medical practice, and outdoor recreation just outside your door. We are currently looking for family physicians, (come as an individual, couple or a group) who are interested in rural medicine. We provide comprehensive care to Meadow Lake and surrounding area. We do full scope family medicine including primary care clinics, ER call, management of inpatients and obstetrics. Anticipated call would be 1:8 for ER call and 1:5 for obstetrics call (varying on how many providers are available). We strive to be a very flexible group, with some providers doing more ER call and some doing more clinic time based on their interests. Clinic work hours are also flexible. We have a blended payment model which includes an hourly rate as well as fee for service billing. As a physician group we are engaged in community based medical education for both undergraduate and postgraduate students. Local CME opportunities include MoreOB, PBL, ACLS, NRP, and PALS. The clinic is a primary care clinic supported by in office RN case managers, chronic disease educators, dietician, pharmacist and a mental health worker. We are blessed with an engaged community and generous Hospital Foundation, and as a result we enjoy the benefits of up to date medical equipment in our modern hospital. We are the northern most surgical obstetrics provider in the province. This is an opportunity to provide medicine to an underserved population. There are positions available for family physicians, as well as family physicians with enhanced skills in surgery or anesthesia. A few of our physicians are engaged global health opportunities and as a group we are very supportive of others doing the same. Outside of a rewarding medical practice you have the opportunity to enjoy a five-minute commute, many lakes and trails and endless opportunities for hunting, fishing and camping. Feel free to contact us to discuss specifics of a contract.
