

Remote Physician (Work from home!)

General Practitioners & Emergency Physicians

Dialogue is Canada's leading telemedicine platform, providing excellent remote care and allowing patients to have access to a complete team of doctors, nurses and other medical specialists. Our mission is to make Canadians happier, healthier and better performing by providing them with access to health and wellness resources **wherever they are, whenever they need them**.

As a physician, you will be joining the **largest telemedicine company in Canada** and a motivated and multidisciplinary team, you will participate in its constant improvement.

Work from wherever, whenever: We offer flexible scheduling and our physicians work from the location of their choice (yes, even from home!)

Shape the future of healthcare: More and more Canadians are turning to telemedicine for medical support - be part of paving the way.

Experience a new source of income: Hours can be added as complementary to your existing practice.

Provide safe, quality care: You remain fully protected by the CMPA, and our care processes are 100% aligned with regulatory college guidelines.

You will be responsible for:

As a physician, you will perform virtual patient encounters via secure video at your own convenience. Scheduling is shift-based, therefore you can easily add on to your existing workload. Our dedicated care team will support you in all care coordination and there is virtually no administrative work to be completed as a physician. Whatever time you spend on assigned administrative tasks such as meetings or training will be compensated.

The profile we are looking for:

- An entrepreneur at heart, willing to innovate in how he/she delivers patient care;
- Canadian board-certified and licensed to work in Canada;
- (Bonus) Experienced in using video for patient encounters.
